Erin:

Yes. I think we actually finished the changes. Let me check with the person helping me on it, but I can get it to you either tomorrow or Monday at the latest.

Thanks,

Mike

Mike, what is the status on this? Anyway you can have it to me by 11/3 so I can approve it before I leave?

Mike, I have some comments on the attached report. I'm guessing that we need to talk about the boring logs. Tetra Tech does them different than what I'm used to, so we may not want to make all the edits that I suggested, however, somethings need to be done, like consistency of description order. Please call me if you have any questions.

Erin:

Shane had started this trip report so I had someone finish it. I had this as a deliverable in my schedule. We will also use the information for the final report, plus it has boring logs and other information you may need. I will have a hard copy sent over as well.

Thanks,

Mike
